

## Azithromycin Suspension Drug Information

109.07.18 修訂  
113.04 ENG 藥衛 044

Generic Name	Brand Name	Dosage form	Appearance
Azithromycin	Zithromax Susp	40mg/mL ; 15mL Suspension	
	Azithrom Susp	40mg/mL ; 15mL Suspension	

### 1. Why do I need this medicine ?

Antibiotics to treat bacterial infections.

### 2. How is this drug best taken ?

- (1) Shake the bottle containing the powder before adding water.
- (2) Add 9mL cold drinking water into the bottle with the syringe provided. Shake it well so that the powder becomes a 15mL suspension.
- (3) After preparation, shake well before each use, and then pour out the required dosage.

### 3. What are some things I need to know or do while I take this drug?

Please follow your doctor's instructions to take adequate dosage. Do not stop medication without consent, in order to avoid recurrence and bacterial resistance.

### 4. Possible Side Effect

Abdominal pain, diarrhea, soft stool, nausea, vomiting

### 5. What do I do if I miss a dose?

- (1) Take a missed dose as soon as you think about it. If it is close to the time for your next dose, skip the missed dose and go back to your normal time.
- (2) Do not take double doses at the same time or extra doses.

## **6. How do I store this drug?**

- (1) After preparation, keep it at room temperature for 5 days.
- (2) Keep it from direct light. Refrigeration is not recommended.
