- 1. Cutting :** Place the medicine in the cutting slot and press the lid. If there are nicks on the medicine, please cut along the center line.

- 2. Grinding :** Open the grinding box, put pills with correct dosage inside. Align the grinding cover with the box and rotate it a few times to grind the medicine into fine powder.

- 3. Soak the half-peeled or powdered medicine into warm water or other potions. The medicine will dissolve on its own and can be taken after stirring.**
